To: Subject: STIC-Biotech/ChemLib 09/771,161

For 09/771,161, pls search:

SID 2: Full-length and oligo search (≥20NTs) against the NT and AA data bases.

SID 93: Full-length and oligo search (≥20AAs) against the NT and AA data bases.

THANKS SO VERY MUCH TO THE GREAT STAFF OF STIC!!!!

Sequence 1, Application US/09748537; Patent No. US20020061833A1; GENERAL INFORMATION:

```
APPLICANT: Chao, Moses V.

APPLICANT: Chao, Moses V.

TITLE OF INVENTION: NOVEL MOLECULES OF THE CARD-RELATED PROTEIN FAMILE AND USES THERE
FILE REFERENCE: 07334-316601
CURRENT APPLICATION NUMBER: US/09/748,537

CURRENT FILING DATE: 2000-12-26

PRIOR PAPLICATION NUMBER: US 09/099,041

PRIOR PAPLICATION NUMBER: US 09/019,942

PRIOR APPLICATION NUMBER: US 09/019,94
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  CARD-RELATED PROTEIN FAMILY AND USES THEREC

NOI_cGAP Chi is a cDNA library containing the following
tissue(s): Chondrosarcoma Grade II. The library was
constructed according to Bonaldo, Lennon and Soares,
Genome Research, 6:791-806, 1996. First strand cDNA
synthesis was primed with an oligo-dT primer containing a
Not I site. Double stranded cDNA was ligated to an EcoR I
adaptor, digested with Not I, and cloned directionally
into pT7T3-Pac vector. The oligonucleotide used to prime
the synthesis of first-strand cDNA contains a library tag
sequence that is located between the Not I site and the
                                                                                                                           1493
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 CA413941 709 bp mRNA linear EST 07-NOV-2002
